

Nice Tops.

(and the girl's not bad either)

Do it with JeeTops. If you have to have your top on, do it with JeeTops. JeeTops 180° front and rear panoramic panels cure the blues when you have to put the top back on your Jeep. Made of the same material that is used to engineer aircraft canopies, this next generation impact resistant acrylic blocks 99% of UV-A & UV-B rays, making them energy efficient and virtually indestructible. They even come with a snap-in shade and a 5 year or 50,000 mile limited warranty. JeeTops are available for all 2 and 4 door 2007–12 Wrangler and Wrangler Unlimited (JK platform) Jeep models.

Order yours today at www.JeeTops.com or call 262-367-1717

JeeTops™

Jeep

Do it with JeeTops™

In the beginning the inspiration behind the patented JeeTops design was simply to let the light in. But in fact it has become so much more. A Jeep owner knows there is nothing better than having the freedom to take the top off and see the world around you. But what happens when mother nature has other plans? No problem for JeeTops. With 180° panoramic panels you can still enjoy the view without the inconvenience or worry.

Installation is a breeze. Just remove your old tops and replace them with your new JeeTops. It's that simple. JeeTops uses new and reconditioned factory tops and guarantees them with a 5 year or 50,000 mile limited warranty.

See for yourself all the cool things JeeTops has to offer.

- Front and rear Panels provide 180° view while blocking 99% of UV-A & UV-B rays.
- Their energy efficiency helps keep your inside cooler on those hot summer days.
- Made of next generation impact resistant acrylic, the same material engineers specify in the manufacture of aircraft canopies, making them virtually indestructible.
- JeeTops come with snap-in sunshades designed for the most extreme off-roading.
- JeeTops patented design increases the overall strength.
- 5 year or 50,000 mile limited warranty.
- Online tutorials and support staff if you have any questions.

The time has come for you to see the light!
